

# Resi Campus Streaming

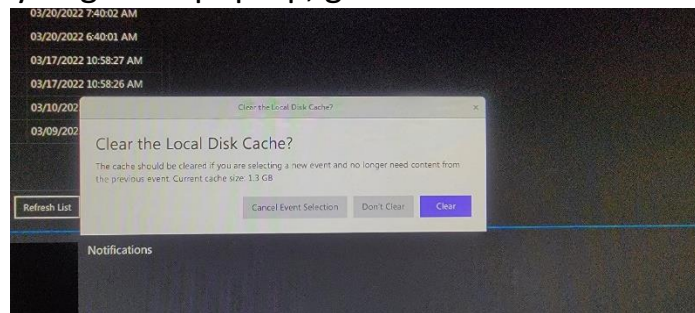

1. If you need to turn on Resi, there is a small button located on the front of the unit. You will see a blue light if the unit is already running.
2. You will first come to a login screen:

- a.
  - b. Username name is the \_\_\_\_\_
  - c. Password is \_\_\_\_\_
3. Once on the main screen, you will see tabs located at the top left side. You will notice Events, Cues, Settings, and Support.
  4. Click on the Events Tab.
  5. You will now see a list of events in a screen on the left side.

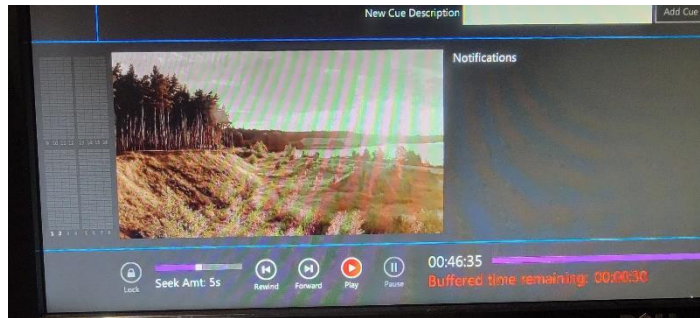

- a.
6. You will look for the latest event with the Title "TVC Multisite"
  7. Select that event and click "Select Event"
  8. When you get the pop-up, go ahead and hit clear.

a.

9. Go to the tabs again located on the left side of the screen and click the “cues” tab.
10. You will see a list of cues populate in the center screen. **These will vary depending on the time you start this process. These will only be here if Hastings is adding them as service goes on. If you don't see them after 9:15 AM, please let the campus staff person know.**
11. Once to get the cues, if you hit the “go to” button, that will jump the video to that location. For example, you want to start the message bumper, click “go to” on the bumper cue and the video will jump right to that spot.
12. Hit Play. Your video will start playing at that location. You can see the buffer time located on the bottom of your screen. This will tell you how long you are able to withstand and complete internet loss without affecting the playback of the video.

a.

13. You will then switch the Blackmagic device to #2. This will switch what is being sent to the projectors and TVs in the different rooms.
